

LUMPMASTER®

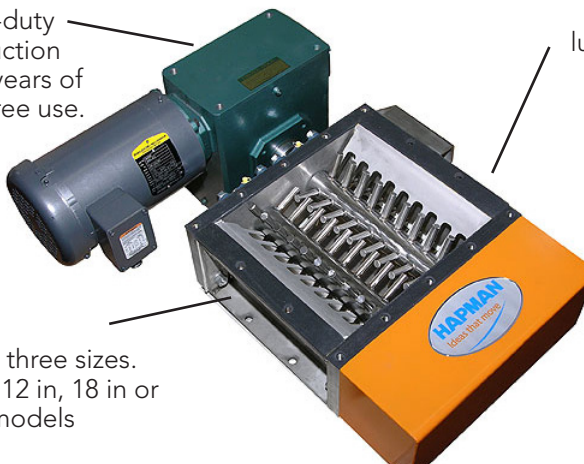

REDUCE COMPACTED MATERIAL AND AGGLOMERATIONS TO EASY-TO-CONVEY PRODUCT.

01 Low profile design easily integrates into your existing or new feeding system.

02 Gear-driven, counter rotating finger shafts and side combs claw through compacted material and agglomerations

03 Low speed, high torque design breaks down lumps into conveyable dimensions.

Heavy-duty construction delivers years of trouble-free use.

Available in three sizes. Choose from 12 in, 18 in or 24 in models

Impacting fingers break lumps into 3/4" size pieces.

Compact, low-profile design offers more inline installation options.

Choose from standard carbon steel, 304 or 316 stainless steel construction. Options for washdown or explosion-proof applications are available.

Ask about our free material testing!
